

I am committed to serving the democratic community with passion and dedication. Since I moved to Richmond in 2010, I have been actively involved in various organizations to promote progressive and inclusive policies. My education includes a BA in Political Science and Philosophy and a Master's in Law.

I am President of the West County Democratic Club, where I focus on enhancing civic engagement. As a community organizer, I have worked on various campaigns, from local leaders to Mark DeSaulnier's initial congressional campaign, to ensure the election of democratic leaders. I am a founding member and co-chair of the Richmond Rainbow Pride and have served on various committees, including the May Valley Neighborhood Council and the El Sobrante Valley Planning and Zoning Committee. Also, I co-chair the Richmond Shoreline Alliance and serve on the West County Sierra Club board, the Reimagine Public Safety Task Force, and the Contra Costa Hazardous Materials Commission, among many others.

My commitment to environmental sustainability, public safety, and fostering an inclusive Democratic community in District 1 is unwavering. I believe that through open communication, leading by example, and advocating for community needs, we build a stronger, more vibrant community that benefits everyone in District 1.
