

ANGELA LOWREY
Seeking Re-Election to Ironhouse Sanitary District Board of Directors
Campaign Website: www.angelalowrey.com

I am running for re-election to Ironhouse's Board of Directors. I'm excited to have the opportunity to continue serving our community. I want to help Bethel Island and Oakley thrive.

Ensuring Ironhouse Sanitary District's wastewater resources are properly administered, maintained and utilized has proven to be more than a campaign promise, but the foundation of every decision I've made on behalf of ratepayers since being elected four years ago.

With my award-winning professional wastewater career, I know first-hand the social, environmental and economic value wastewater public health services provide.

After obtaining my Masters Degree at the London School of Economics, I moved to Oakley in 2009 to work at California's large industrial recycled water facility. I have been active in our community through service clubs, committees, fundraisers, and helping neighbors. I am a Past-President of the Kiwanis Club of Oakley and a graduate of the Oakley Leadership Academy.

I was proud to spearhead the reduction of sewer rates in 2021, enjoy working with my Board colleagues to introduce a Biosolids Master Plan and the agency's five-year Strategic Plan, I am committed to supporting the new Wastewater Treatment Master Plan, comprehensive Cost-of-Service Study and a Strategic Staffing Plan.

My priorities are continued fiscal excellence; championing a fair and equitable rate study; maintaining and upgrading wastewater infrastructure assets to meet the needs of our growing community; a transparent and inclusive land use initiative for Jersey Island; supporting drought resilient "One Water" partnerships to maximize use of Ironhouse's recycled water; and, championing legislation for clean water funding.
